Project 2

WIREFRAME

Create a wireframe of your future website. Your wireframe can be drawn by hand + photographed/scanned later, or created digitally using MS Powerpoint, Visio, Paint, etc. Please pick your own format. If there are several different layouts for different pages of your site, please include each as a separate page in the document.

ABOUT US

Gentlemen, isn't it difficult to find jewelry that is both reasonably priced and of high quality? I thus present to you Yerlon, which enables you to browse the most well-liked watches and jewelry. It might be challenging for guys to wade through so many websites to discover men's jewelry. Even while some websites already include a section for males, the selection is relatively small and features cheap jewelry and unidentified brands.
